

Show My Homework Parent Instructions.

You may already be aware, but we have recently rolled out a new online homework diary to all our pupils. This allows teachers to record all the homework they have set online, so it can then be accessed by pupils, and monitored by parents.

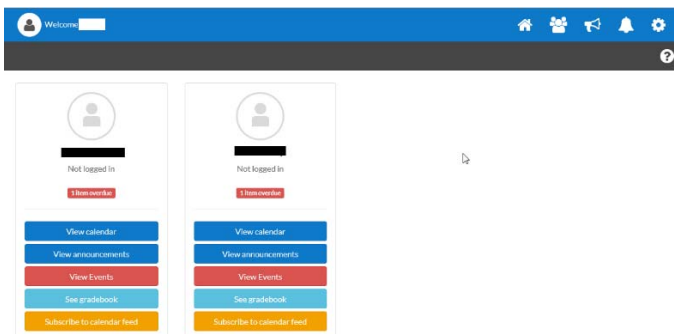

To log in to the Show My Homework system, go to newmanrc.showmyhomework.co.uk. This gives you access to all homework set throughout college for the week. In the top right corner, click [Login]

This will bring up the login screen below:

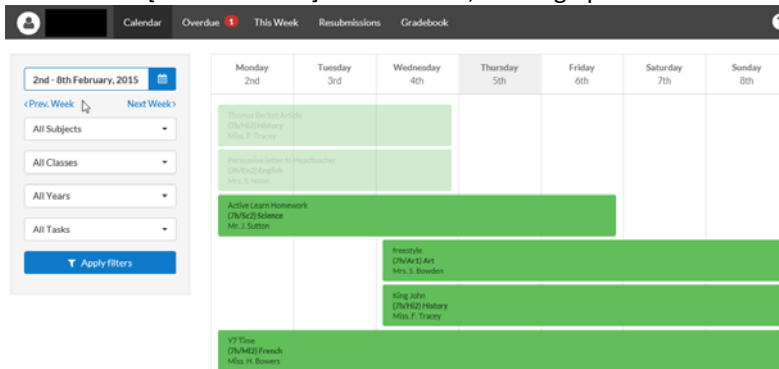

Enter your username and password in the two boxes, and click [Log In]

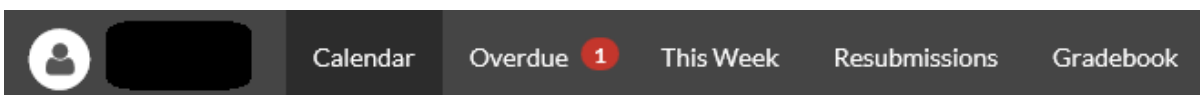

This will now show your children. If any are missing, please contact the college, and this can be rectified.

You can then select [View Calendar] on each child, to bring up the homework they have been set.

This also shows a timeline for each piece of work, showing when it was set, and when it is due to be completed. You can click on a piece of homework to see more details.

From the menu at the top, you can filter homework to show only those overdue, or those due this week, as well as resubmitting any homework already done, or reviewing the grades your child received for previous homework.
